## Electronic and Hazardous Waste

© M.Beckwith 2008

My Daddy always said,  
"Hey son use your head.  
Everything has a time and place."  
You should never burp  
While singing songs in church  
Or dispose of your hazardous waste

Old batteries, medicines, oil, or ink  
Anything poisonous  
Don't throw them in the trash - don't pour them down the sink  
That's not good for us

My Daddy always said  
"Hey son use your head  
Everything has a time and place."  
Never pass gas  
While reading books in class  
Or dispose of your electronic waste

Like old iPods and busted cell phones  
Come on now don't be rash  
There's a place e-waste should be goin'  
And its not with the other trash

We don't want it in our water  
We don't want it in our land  
So dads, moms, sons, and daughters  
We'd appreciate a hand

So open up that shed  
Get the stuff from under your bed  
How do you find the right time and place?  
Check mail or internet  
For a place appropriate  
To take your real old  
Stuff covered with mold  
It'll never turn to gold  
Electronic...and hazardous waste

To a location near you

They recycle it too
