Trash

© M.Beckwith 2008

Rubbish, garbage, litter, and refuse...

On the left...Green moldy bread
On the right...That melon's dead
In the back...Is that a telephone?
Look again...No, it's a chicken bone

Trash

On the floor there's trash
Behind the door there's trash
Garbage galore there's trash

On the left...What's in the bag?
Look inside...Oh I'm going to gag
On the right...A soccer ball with hair?
Turn out the light...Mommy I'm scared!

Trash

In the chandelier there's trash
In my left ear there's trash
Wish it would disappear, that trash

Oh how I wish a truck would come
I wouldn't care where that truck came from
As long as it would take my trash away
To someone else's house and then they would say...

Trash

Under the chair there's trash
Upstairs there's trash
I think I'll wear my trash
