

## **Good Planets Are Hard To Find**

lyrics and music by Mark Beckwith

There's a place  
In outer space  
Very far away  
It's got air  
Water's there  
So I'm on way

### *CHORUS*

Good planets are hard to find  
So I'm gonna make it mine  
It's in my porthole view  
Lovely green 'n' blue  
It's got mountains  
It's got trees  
It's got water falls  
That flow to the seas  
They called it "Earth"  
"Planet Earth"

Long ago  
So I'm told  
People lived on Earth  
They trashed their home  
So there I go  
I know what its worth

### *REPEAT PREVIOUS CHORUS*

I'm landing  
I'm landing  
I'm landing  
Hello Earthling

### *CHORUS*

Good planets are hard to find  
May I make this one mine?  
You've got a real nice place  
The envy of outer space  
You've got mountains  
You've got trees  
You've got water falls  
That flow to the seas  
Let's change its name  
To "Planet Worth"
