

My Beautiful Planet

lyrics and music by Mark Beckwith

Had a nightmare
Garbage everywhere
Smoke filled the air
In my nightmare

I awoke
I knew it wasn't real, though
It kind of gave me a scare
Morning broke
Opened up my window
Felt the sun, heard the birds
Breathed the air

CHORUS

I'm in love with my beautiful planet
All the animals, plants growing tall
Sometimes I feel that I take her for granted
Seems to me she's got to be the most important thing of all
My beautiful planet

Ran outside
Climbed a great big mountain
I had to see for my self
Stood with pride
Just as I had found it
Sea was blue, trees were green
She was wonderful

REPEAT CHORUS

Like a child
Earth I must protect her
From any harm that comes her way
Cause the lives
Of my children's children's children
Are affected by things that I do today

REPEAT CHORUS
