

## **Solid, Liquid or Gas**

lyrics and music by Mark Beckwith

Matter can change its form

The state of matter  
When it's cold or hotter is  
Solid, liquid ...  
Solid, liquid ...  
Solid, liquid or gas  
Solid, liquid ...  
Solid, liquid ...  
Solid, liquid or gas

A ball of snow  
The kind you throw  
Snow is solid...  
Snow is solid...  
Snow is solid not gas  
Snow is solid...  
Snow is solid...  
Snow is solid not gas

When you scrub  
In the tub  
That water's liquid...  
That water's liquid...  
That water's liquid not gas  
That water's liquid...  
That water's liquid...  
That water's liquid not gas

In boiling pot  
Steam is hot  
Everyone say it...  
Everyone say it...  
Everyone say it that's gas  
Everyone say it...  
Everyone say it...  
Everyone say it that's gas

But what is strange is  
It never changes  
Its mass when

The state of matter  
When it's cold or hotter is  
Solid, liquid or gas
