

## SONG LYRICS

# Cycles of Water (Jazz Mix)

(M.Beckwith) ©2009 Building Block Entertainment Inc.

Colder and hotter  
Makes cycles of water  
Up and down, round and round  
Round and round

Sun is hot  
Ocean warms  
Water temperature transforms  
Evaporation  
Say Goodbye...aloha

Vapor cools  
Clouds are formed  
Water's stirring up a storm  
Condensation  
In the sky

Then the sun's smile turns to a frown  
Precipitation falls to the ground...but it's good

On mountain top  
Melted snow  
Fills the creeks, rivers flow  
Accumulation  
In the sea below

Colder and hotter  
Makes cycles of water  
Up and down, round and round  
Round and round  
Round and round

From the album  
"The Amazing Journey of Water"
