

## SONG LYRICS

# Start a Wave

(M.Beckwith) ©2009 Building Block Entertainment Inc.

Water's valuable  
I thought you ought to know  
Start a Wave!  
Woooo!

Water's better than popcorn  
It'll quench my thirst  
More important than a guitar  
I would pick it first  
When the weather is hot that water is cool  
And I can float just like a boat  
In my swimming pool  
I say water  
Is something to save  
Start a wave!  
Start a wave!  
Woooo!

Water's better than a Corvette  
It gives trees a drink  
More important than fast jet  
It's right there at the sink  
It can wash my hands and a greasy plate  
And I've been thinkin' I'll be drinkin' it  
'Till I'm 98  
I say water  
Is something to save  
Start a wave!  
Start a wave!  
Woooo!

And when you think about it  
Water's valuable  
I thought you ought to know  
We cannot live without it  
Plants and animals  
Need fresh clean H2O  
Water's better than TV  
Cause it clears the air  
Even better than a candy  
To wash cloths I wear  
Though it may flood - make lots of mud  
I'll defend it, just like friend  
It's even in my blood  
I say water  
Is something to save  
Start a wave!  
Start a wave!  
Woooo!
