

SONG LYRICS

Solid, Liquid or Gas

(M.Beckwith) ©2009 Building Block Entertainment Inc.

Matter can change its form
Matter can change its form
The states of matter
When it's cold or hotter
Are solid, liquid
Solid, liquid or gas
Solid, liquid
Solid, liquid
Solid, liquid or gas

A ball of snow
The kind you throw
Snow is solid
Snow is solid
Not gas
Snow is solid
Snow is solid
Not gas

When you scrub
In the tub
That water's liquid
That water's liquid
Not gas
That water's liquid
That water's liquid
Not gas

The states of matter

In boiling pot
Steam is hot
Everyone say it
Everyone say it
Everyone say it it's...
Everyone say it
Everyone say it
Everyone say it it's...

What is strange is
It never changes its mass

The states of matter
When its cold or hotter are
Solid, liquid
Solid, liquid or gas
Gas
