

SONG LYRICS

I Am a Worm

(M.Beckwith) ©2008 Building Block Entertainment Inc.

My name is Megadrile the Earthworm
And I approve this message

I am a worm
Not a slug or a bug
I don't mean to be smug
But I do more than those annoying ants

I am a worm
So slowly I crawl
I know that I'm small
But I help the sun loving plants

I work hard everyday
To eat the leaf decay
Just keep those birds away
And I'll do my part
I'm quite a shovel full
I'm pretty lovable
I'm almost huggable
I do have five hearts

I am a worm
I tunnel sideways and down
I make a very soft ground
So your mama's garden grows
I am a worm
As I eat and I toil
I make humus for the soil
Rotten tree fruit I decompose

When vegetation dies
I make it fertilize
I'm trying to help you guys
And your compost pile
Your garbage I convert
Into fine fertile dirt
And no one here gets hurt
I do it with a smile

I am a worm
A key a player I am
For team Ecosystem
Ecology I represent
I am a worm
So can I count on your vote?
Yes, I'm here to promote
I'm running for president

Megadrile for President.
A vote for Megadrile is a vote for change.
Our garbage he'll convert, into good old garden dirt

I am a worm

From the album
"Singin' Green"
